Education

Education is the Peace Corps’ largest program area. Volunteers play an important role in creating links among schools, parents, and communities by working in elementary, secondary, and post-secondary schools as math, science, conversational English, and resource teachers or as early grade reading and literacy teacher trainers. Volunteers also develop libraries and technology resource centers.

Relevant Coursework
Take three, 3 or 4 credit courses as part of an approved education, science, or math major or minor, such as the following:

- English
- Geosciences
- Elementary, Secondary or Special Education
- Biological Sciences
- Math and Statistics
- Computer Science

For non-majors, speak with a PC Prep Advisor about relevant courses

Field Experience
Build 50 hours of related field experience through activities such as tutoring or teaching English as a Foreign/Second Language, special education, drama, or a STEM subject. You can serve as a Peer Tutor in the Writing or Math Center in Rendezvous, or gain classroom experience while studying away.

Additional items to complete
- Two, 200 level Spanish or French courses or second language of choice
- Three intercultural/diversity courses or study abroad/away
- One significant leadership experience and resume critique at the Career Center
