- College of Science and Engineering
- College of Technology

Veteran Students
Here you can also find a link to the Online Pre-Orientation and dates for the Orientation sessions.
After logging in, you will select the "New Student Orientation" module.
On the home screen, you will see the list of topics. Each topic must be completed in order before the system will allow you to move ahead to the next one. Start by selecting 'Welcome.'
Welcome to Idaho State University's new student orientation. This presentation will provide an overview of what you need to know as you prepare for your first year at ISU. Orientation guides will lead you through six topics highlighting our academic and support services, academic advising, campus life and student involvement, student rights and responsibilities, policies and procedures, and next steps. As you move through the presentation you'll be able to request more information about the areas that interest you. As you complete each of these six topics a checkmark will indicate your progress. There are a few quizzes so you can check out how you're doing. If you start the orientation but don't finish you'll be able to pick up where you left off just by logging back in. Once all six areas are completed you'll be able to return to the resource page anytime during the year to access information and links to assist you in your first year as a new Bengal. Are you ready? Click next and then the academic and support services link and get started!

Welcome to ISU!
Let's ROAR!

By clicking on the first topic box you will come to a page like this one. It will include audio for the paragraph and a helpful tool at the bottom.

By clicking the "I" (information) button, the weblink will be saved for you at the end of the entire module under "Items of Interest."

This icon will allow you to move forward in the presentation once the timer for each paper is completed.
Every so often, quizzes will arise which will test your knowledge of the previous slides.

Quiz

Hello! Let’s take a moment for a quiz question to see how you’re doing. Students have the ability to do which of the following through their online BengalWeb account?

A. Register or withdraw from classes
B. Pay tuition and fees
C. Check on financial aid status
D. All of the above

Correct! Actually, all three of the choices are correct. BengalWeb is an important tool for ISU students. We hope you will make the most of it.

The correct answer will highlight to box green and the wrong answers red.
When you have completed each topic, your previously saved "Items of Interest" will be listed here for you.
Personalized Items of Interest

Below you will find links associated with the "i" icons you have clicked while going through the New Student Orientation.

Academic & Support Services

▷ Student Success Center
