VETERANS AT IDAHO STATE UNIVERSITY

Idaho State University (ISU) is committed to veterans in the community. ISU encourages the enrollment and support of military veterans, service members, and their families by providing a network of support programs and services. Leading this effort is the Veteran Student Service Center, a division of Student Affairs. The expanded campus network includes a variety of veteran-friendly student service programs. Veterans at ISU benefit from a highly supportive community for themselves and their families.

What does the Veterans Student Service Center provide?

- A lounge and study area with a computer center
- Academic advising and personal counseling
- County veteran services representative
- Career resources
- Veteran-specific student advocacy

PHYSICIAN ASSISTANT PROGRAM: LATINO HEALTH TRACK

The PA Program has established a scholarship for students accepted into the Program who demonstrate a career objective to serve Latino communities. Up to half of five $2,000 stipends, up to $8,000 over two years, are reserved for student veterans. Students who are accepted into the Latino Health Track (LHT) commit to enrolling in the offered PAS Medical Spanish courses; pursuing the Graduate Certificate in Spanish for Health Professions (SHP); and to completing five of the eight clinical rotations in high-density Latino areas.

While a greater language proficiency will increase competitiveness, it is not required, nor is Latino heritage. Students offered a seat to the PA Program or who are placed on the alternate list will be sent an application in the Summer.
