Participate in the Great Earthquake!

Be prepared for an earthquake!

Partake in your own safety.

Vent your hall mates drunk friend from potentially sneaking in out of confusion. It is better to be safe than sorry. So leave the party when your friends do.

Do NOT use headphones when walking around campus. You may roll your eyes as your parents hand you a buddy, as we mentioned above, and if that buddy is ready to leave the party at 10 o’clock, then you should be leaving as well. There should be at least one person you know and trust at the party, otherwise, you should leave. Even if the other people there seem like the sweetest people, you still don’t know them. It’s better to be safe than sorry. So leave the party when your friends do.

Use your locks! Just because you’re living in a dorm environment that feels safe because your RA lives in the next room doesn’t mean that you shouldn’t lock your door every time you leave. Even when you’re inside the room, lock the door to prevent your hall mates drunk friend from potentially sneaking in out of confusion. It saves you embarrassment, even potential danger, and it saves your belongings as well. While we make it a priority to keep you safe, it is still up to you to be an active participant in your own safety.

6. Use your locks! Just because you’re living in a dorm environment that feels safe because your RA lives in the next room doesn’t mean that you shouldn’t lock your door every time you leave. Even when you’re inside the room, lock the door to prevent your hall mates drunk friend from potentially sneaking in out of confusion. It saves you embarrassment, even potential danger, and it saves your belongings as well. While we make it a priority to keep you safe, it is still up to you to be an active participant in your own safety.

September is National Preparedness Month

Disasters and will happen anytime and anywhere. The nation is currently experiencing wildfires in the west and the outlook is that they will continue into November.

The heat we’ve seen across the nation this summer is setting records in many cities and states and follows on the heels of our four warmest years on record (2012, 2015, 2016, and 2017).

ISU Alerts Emergency Notification System

What is ISU Alerts?
ISU Alerts is an emergency notification system for quickly delivering phone, text and email messages to Idaho State University students, faculty and staff when there is an emergency.

What kind of notifications will you send, and when?
The ISU Alerts system will be used to notify students, faculty and staff of unforeseen events and emergencies on campus, such as:

- Severe Weather
- Campus closures
- Evacuations
- Critical Situations
- Serious Crimes

The system will be activated when there are immediate threats to the health or safety of those in the university community. Notifications will be sent via landline phones, cell phones, text messages and email.

To sign up for ISU Alerts:
1. Log in to BengalWeb
2. On the homepage under ISU Alerts, select ISU Emergency Notification System
3. Verify your information, making sure to add the cell phone numbers and email addresses you want notified.

That’s it! It’s that easy. If you need assistance or have any questions, call us at (208) 282-2515 or 2911.

Fire Safety—On-Campus Living and Working

Who to contact - In the event of a fire: immediately call 911, then call Public Safety at 208-282-2515 or 2911, or emergency@isu.edu.

Know where your emergency exits are for your building. Know alternate exit routes just in case one is blocked.

Learn where smoke alarms and pull stations are located in your building.

No Smoking - Fires from smoking related products are a cause of many fires.

Minimize extension cords, if they are allowed, and use power strips and extension cords with UL approval only. Don’t hide extension cords under rugs.

Actively participate in fire drills. While they do interrupt your sleep, window decal to discourage burglary and theft.

The Rave Guardian App is a free and optional personal safety app available to ISU students, faculty, and staff who have an ISU edu login. Rave Guardian transforms your smartphone into a personal alarm beacon. In the event of an emergency, critical information you elect to share will be provided to ISU Public Safety to enable them to reach you quickly. If you are interested in ISU’s Rave Guardian App on Android and Apple Phones, our Public Safety officers will stop by any time you request them to assist in setting up, demonstrating, and testing the app.

Please give us a call at 208-282-2515 or 2911 to schedule a presentation or to set up the Rave Guardian App.

Public Safety Spot Light—Samantha Jackson, Parking Traffic Supervisor

Samantha Jackson is our Parking Traffic Supervisor. She has many responsibilities which include:

- Resolving complaints regarding violations of traffic and parking;
- Directing vehicle impounds to ensure proper legal steps are followed for vehicle custody;
- Surveying parking lots for over or under-utilization and hazards; and
- Assisting customers by providing information regarding campus policies.

When Samantha isn’t hard at work she likes to go four wheeling and camping.
