## Salve a tutti!

Being an Instructor/Coordinator for UHP, I am known as a conscientious objector of parallel parking, someone who can discuss at length the physiological differences between a dragon and a wyvern, a proud owner of an expired industrial forklift operator license, and the chaotic amalgamation of an outgoing personality with the social battery of an profound introvert.

On a more serious note, I am also someone who has had a tumultuous relationship with my education. Since I finished my formal education in 2022 after graduate school, I have been slowly relearning how to fall back in love with the process of learning and discovery. Outside of work, I am spending all of my time learning about Italian language and linguistics, international relations, and teaching English to speakers of other languages.

As a former honors student turned faculty member, I aspire to cultivate an honors learning community in which you all feel that you cannot only survive, but thrive, during your college experience. I am always eager to celebrate your wins, work through your challenges, or just yap about life. I truly mean it when I say to reach out, I am here for you!

I am wishing you all the best this semester - in bocca al lupo e ci vediamo alla prossima!  
Conner

## Are You Bundling?

Have you heard about the ISU Book Bundle Program?

[isu.edu/bookbundle](http://isu.edu/bookbundle)

The Book Bundle may save you some time and money, or it might not. You'll need to add up the costs of your textbooks to find out.

Book Bundle Charge = \$24.75/credit

Example: 15 credits \* 24.75 = \$371.25

If your textbooks for the semester cost more than the Book Bundle charge, it's a good deal for you!

**Opt Out Deadline is September 6, 2024**

# Introducing the: 2024/2025 UHP CPI | Amber Olin

The ISU Career Path Internship (CPI) Program is a paid internship program that allows students to gain hands-on, real-world experience in their chosen course of study or an internship that aligns with the student's career goals. The CPI program was created in 2010 to provide meaningful job experience to ISU students through internship opportunities.

CPI opportunities are available through on-campus and off-campus partners. Students may be recruited for a position or CPI positions may be advertised in a flyer or in [Handshake](#) (ISU's student job posting site).

Learn more about the ISU CPI program at [www.isu.edu/career/cpi-program/](http://www.isu.edu/career/cpi-program/)

My name is Amber Olin, I'm in my third year at ISU and studying Multiplatform journalism with a minor in Linguistics. When I'm not in class, I'm crocheting, playing video games, or trying to become a psychologist through YouTube video essays. I am currently serving as UHPC Historian, in which I get to plan and host Honors Program events, as well as, connect with you through our social media!

This year I am also working alongside UHP Leadership as a Career Path Intern to create the first Honors Magazine. Our intention with this publication is to highlight the incredible achievements of current and past honors students and faculty. To do this, we will be collaborating with students in HONS 3399: Maximizing Community Impact in compiling and constructing all the content to be featured. With the Honors Magazine, we hope to connect UHP to the greater ISU community by sharing stories that showcase the amazing qualities and students which make our program so exceptional!
